CHANCELLOR

A WORD FROM THE CHANCELLOR

I welcome all of you to the 17th Graduation Ceremony of Busitema University. We pay special appreciation to H.E the President, the Minister of Education and Sports and all the Government organs that have made it possible for young men and women of this country to acquire the education to the level we are celebrating today. I thank the University Council, the Senate and Management for the good work done amidst challenging circumstances.

To the graduands, today marks the beginning of a new chapter in your life. While at Busitema University you demonstrated zeal towards your studies, showed respect to your Lecturers, the University support staff and your fellow students. This kind of attitude should continue to guide you in your field of work. I give special gratitude to all your teachers, mentors, peers as well as to your parents and guardians, for the help and counsel they accorded you over the years, making it possible for you to attain this celebrated achievement.

While your time at Busitema University has been a phase to help you establish your roots firmly, it is a beginning of continued growth to more productive years ahead of you. You have received 'nourishment' in the form of knowledge and anchoring to help you bear much fruit and support to withstand the storms of life that will come your way.

I am confident that your extraordinary experience at Busitema University, the fashion in which you have conducted yourselves over the years, and the knowledge and skills you have received will promote you to overcome the future encounters.

The life expedition that you are now embarking on, incorporates personal, and family responsibilities as well as a navigation of global communities and nations. This is likely to place colossal pressure on you to respond to society dynamics. I have no doubt that, with the knowledge and skills acquired at Busitema University together with increasing creativity and innovation you will make

great contribution to your local and global communities in a significant way. You must continuously adapt to a rapid changing world especially the digital environment in order not to be left behind. Despite our many difficulties, or perhaps because of them, Uganda offers enormous opportunities for innovation in virtually every field. If you aim to serve, you will find unlimited opportunities.

Today you join the multitude of convocation members, I challenge you to intensify and innovate to create a better country than what we inherited. A spirit of blame does not in itself meet the crying needs we face. But an unwavering willpower to meet needs, even when monetarily undercompensated, can make a remarkable difference in the lives of the people whom God brings our way. Love is not about getting. It is about giving and until we practice and transform love, I believe we shall not be able to turn Uganda and ourselves around.

I commend you to go out and love the world, starting with your family, knowing that our labour in the lord is not in vain! You will be amazed at God's response to your sacrifices and so "let us do everything as unto the Lord". Remember our country's motto: *For God and my Country*. This vision of our motto is the way to peace and prosperity.

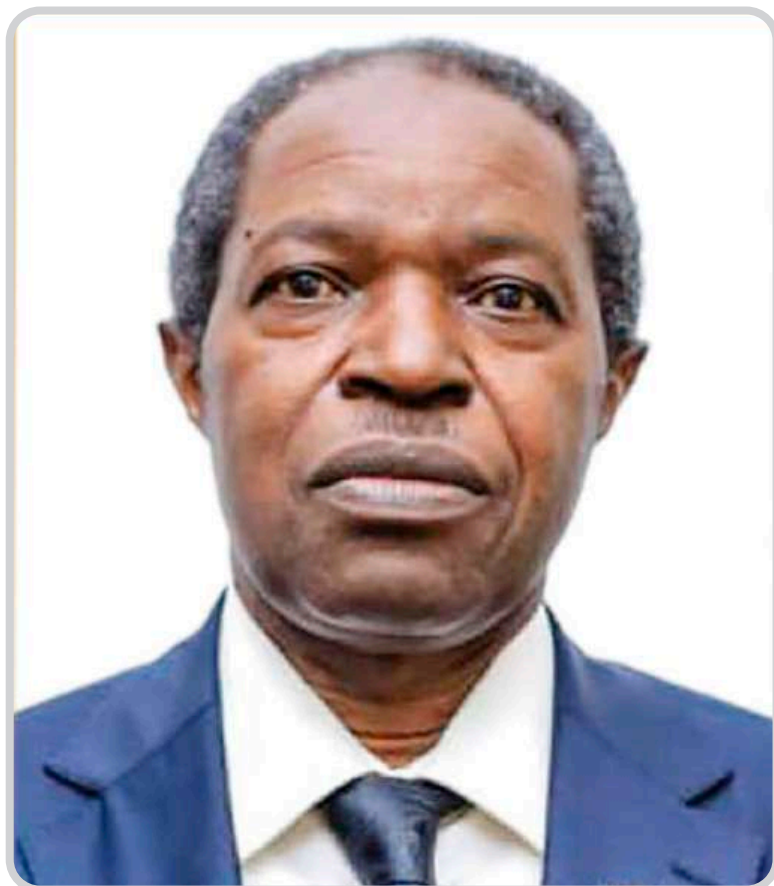

I wish you great success and excellent health as you leave the gates of Busitema University. Let us continue, together, to *Pursue Excellence* in everything we do.

For God and My Country

VICE CHANCELLOR

A WORD FROM THE VICE CHANCELLOR

I take this opportunity to congratulate all graduands, parents and benefactors on this occasion of the 17th Graduation Ceremony of Busitema University. Today is a special day in your academic journey. We thank God for bringing you this far!. The journey has been long with a lot of challenges but that is part of the training you have achieved at Busitema University. Your resolve, commitment to personal growth, and the support of your families and friends has been critical to the completion of your journey. It is not only important to celebrate every achievement in life but equally important to remember and always acknowledge the contributions of society to our growth. Remember to give back to society in equal measure.

I am overly grateful to the Government, the University council, and staff who have contributed to the training program which you have gone through successfully.

During your stay at Busitema University, you have acquired new knowledge, skills and efforts have been made to impart in you a positive attitude towards work. It is our hope that you will put this to good use in the world of work. It should be noted that the work terrain is rapidly changing and requires lifelong learning skills which we have tried to impart. Some of you with support of your Lecturers took advantage of the conducive atmosphere at Busitema University to develop new innovations, publications and have received global recognitions. This should give you the momentum to continue growing as innovators in your respective fields of training for the world today is welcoming job creators and not job seekers

I encourage you to take advantage of every opportunity that will arise and allow yourselves to engage and enhance your newly developed critical thinking and problem solving skills. In this era, where the job market is very competitive, I commend you to take advantage of any available volunteering, apprenticeship and internship opportunities. This will exploit your talents whilst

accumulating the much-needed experience as you transit from the academic to the professional work environment.

After the Chancellor has conferred upon you the befitting academic Award, you are addressed as a Graduate of Busitema University. You acquire the status of an Alumnus, and a Member of the Busitema University Convocation. I urge you to take advantage as members of the Busitema University Convocation to support infrastructural development at your Alma Mater.

In addition to the knowledge and skills you have acquired, honesty and integrity are going to be key to success in whichever endeavour you will undertake. As we bid farewell to you today, I urge you to go out and make Busitema University proud. This is the time to rejoice, reflect and reposition yourself to chase your dreams.

Congratulations on this momentous occasion of your life.

WAMONO Emma

IMPACT OF ANTHROPOGENIC STRESSORS ON ECOSYSTEM HEALTH AND POTENTIAL IN-STREAM RESTORATION MEASURES OF RIVER MANAFWA CATCHMENT IN EASTERN UGANDA

Wamono Emma investigated the impact of human activities on the ecological health of River Manafwa catchment, one of eastern Uganda's freshwaters. His research work integrated water-quality monitoring, macroinvertebrate bioindicators, community knowledge and field-based nature restoration to mitigate the impacts of anthropogenic pressures on River Manafwa. Results indicated that intensive agriculture,

livestock grazing, urban activities and car-washing altered water chemistry, increase sediment and pollutant stress, and impacted aquatic biological communities, while forested reaches provided a strong ecological buffer. Use of macroinvertebrates as bioindicators proved to be a powerful method of determining the river condition: For instance, pollution-sensitive taxa were more strongly associated with healthier reaches, while disturbed sites supported more tolerant macroinvertebrate assemblages. Furthermore, while the communities living around the river displayed high awareness of the activities that result into river degradation, they didn't take action to prevent or restore the ecological health of River Manafwa, thereby exposing a critical awareness-action gap, demonstrating that knowledge alone cannot restore a river without practical livelihood alternatives, supportive institutions and meaningful participation. The study further tested low-cost pool-riffle sequences and woody in-stream structures as simple practical

means to restore River Manafwa ecological health. Both interventions produced measurable short-term ecological responses, with the pool-riffle structures supporting high macroinvertebrate abundance and family richness while woody structures assemblage created refugia, retaining organic matter and supporting sensitive taxa. These findings position nature-based, locally adaptable restoration measures as a promising component of river recovery system when combined with pollution control and riparian protection. The study was supervised by Assoc. Prof. Andama Edward and Dr. Turyahabwe Remigio

ACHUU Simon Peter

IMPACT OF CLIMATE VARIABILITY ON RANGELAND ECOSYSTEM PRODUCTIVITY AND MITIGATION MEASURES IN AWOJA CATCHMENT AREA, EASTERN UGANDA

Achuu Simon Peter investigated how climate variability reshapes rangeland ecosystem productivity and the livelihoods of pastoral and agro-pastoral communities in the Awoja Catchment Area, eastern Uganda. His doctoral research integrated long-term climate and satellite observations, community knowledge, household adaptation practices and field-based experimentation to inform how rangelands respond to changing

climatic conditions, and how communities and ecosystems can be supported to become more resilient. The study demonstrated that changing climatic conditions influence vegetation productivity, pasture condition, water availability and livestock-based livelihoods.

Community observations confirmed evidence obtained from climate and satellite data, confirming the value of indigenous ecological knowledge systems in rangelands conservation. Pastoral and agro-pastoral households responded through livestock mobility, supplementary livestock feeding, herd management, fodder production, pasture improvement and water conservation, but effective adaptation depended on access to resources, extension services, climate information and supportive institutions. Furthermore, the study evaluated ecosystem-based adaptation interventions for restoring degraded rangelands and found out that the interventions improved vegetation recovery, plant diversity and soil fertility, indicating that degraded rangelands can regain important ecological functions when appropriately protected and restored. These findings position ecosystem-based adaptation as a practical pathway for strengthening rangeland resilience while supporting livestock production, biodiversity conservation, soil health and pastoral livelihoods. The significance of this work extends beyond the Awoja Catchment, strengthening the evidence base for climate-resilient livestock production, sustainable rangeland management, ecosystem restoration and livelihood security across Uganda's cattle corridor. The study was supervised by Dr. Andonia Bitooru Kamukasa and Dr. Turyahabwe Remigio

ANNET Iragaba Bakunzi

CORPORATE SOCIAL RESPONSIBILITY OF MANUFACTURING FIRMS IN UGANDA

Annet Iragaba BAKUNZI explored the pathways to sustainable industrial practices within the manufacturing sector by examining how corporate governance influences corporate social responsibility (CSR) initiatives. Her study specifically analyzed the complex interplay between managerial discretion, environmental regulations, corporate governance and CSR practices among manufacturing firms in Uganda. Notably, using a cross-sectional research design, her findings revealed that while strict environmental regulations and strategic managerial choice shape corporate behavior, it is the strength of robust corporate governance mechanisms that ultimately bridges and maximizes these dynamics to drive impactful corporate social responsibility. This work offers vital, evidence-based frameworks for industrial policy makers and corporate executives seeking to advance sustainable industrial development in Uganda. The study was supervised by Assoc. Prof. Musenze Ibrahim Abaasi, Dr. Namono Rehema and Assoc. Prof. Nangoli Sudi

OATH

I solemnly pledge myself before God and in the presence of this assembly to pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug.

I will do all in my power to maintain and elevate the standard of my profession and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling.

With loyalty will I aid the physician in his/her work, and as a missionary of health, I will dedicate myself to devoted service for human welfare

Oath (MED & BNA)

I swear to fulfill, to the best of my ability and judgment, this covenant: I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug. I will not be ashamed to say I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may a/so be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure. I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

A MESSAGE FROM THE CONVOCATION CHAIRPERSON

17th Graduation Ceremony — October 3rd, 2026

By Eng. Badru Musinguzi – Chairperson, Busitema University Convocation

Eng. Musinguzi Badru,
Chairperson, Convocation

Today, as Busitema University marks its 17th Graduation Ceremony, we pause to celebrate the achievements of every graduand and to reflect on the continued growth of our university. This milestone also renews the purpose of the Convocation as a body dedicated to serving our students, alumni, staff and the wider University community.

Today, you join a growing family of over 17,000 Busitema graduates. Membership in the Convocation is more than symbolic – it is a lasting bond linking you to generations of alumni who once sat where you now sit, and who are today shaping national development across various sectors.

Our Mandate, Our Progress

Guided by its mandate to uplift students and empower alumni, the Convocation has continued to deliver on several fronts, including:

1. Ladies' Hostel Complex at Nagongera Campus: This year, we are launching a fundraising campaign for the construction of this complex, aimed at providing safe, decent and affordable housing for our female students.

We invite alumni, friends and partners of the University to join us in bringing this vision to life.

2. The Convocation Scholarship Fund: established to support brilliant but financially disadvantaged students, this Fund was operationalized this Academic Year, with the first group of beneficiaries now ready to receive support.
3. University Regalia Production House: manufacturing graduation gowns and promotional materials, this initiative continues to grow – the very gowns worn today are proof of it, made possible through the effort of our students and alumni. Plans are underway to expand its production capacity and equipment.
4. Environmental stewardship remains strong through the Square of Excellence and the Busitema Greening Project. This has honoured outstanding students and distinguished contributors to the Convocation through tree planting, in line with the overall goal of planting 5 million trees across Busitema University's campuses to enhance climate resilience efforts.
5. A comprehensive alumni database continues to grow, sustaining engagement through meet-ups and Annual General Meetings.
6. The Convocation also remains active in enhancing the University's visibility, among other ongoing initiatives.

A Word to Our Graduands

As you step into the world beyond Busitema, I encourage you to remain connected – to your classmates, your lecturers, and your Alma Mater. The friendships formed in the lecture halls and hostels are the seeds of professional networks that will serve you for decades to come. Strong alumni networks create pathways to mentorship, collaboration, career growth and business opportunities. Do not let these bonds fade away. Rather, nurture

them, and when the time comes, be ready to extend the same hand of mentorship to those who will sit in these seats after you.

Remember, too, that a university's reputation is carried not by its buildings but by the conduct and achievement of its graduates. Wherever you go, you carry the name of Busitema University with you – let your competence speak for our academic standards, and your integrity speak for our values.

On behalf of the Executive Committee and myself, I warmly congratulate you all. May you carry forward the values of Busitema University with pride, pursue excellence in all you do, and represent our Alma Mater with distinction wherever your path leads. The Convocation looks forward to journeying with you, today and always.

Pursuing Excellence,

For God and My Country
