A WORD FROM THE CHANCELLOR

I take this great opportunity, on this occasion of the 12th Graduation Ceremony of Busitema University, to congratulate you all for this great achievement. You have worked hard and I am undeniably proud of your accomplishments.

The zeal you demonstrated towards your studies, the respect you rendered your Lecturers, the University support staff and your fellow students are remarkable and represent the critical first steps in your career development. My sincere gratitude goes to your teachers, mentors, peers as well as to your parents and guardians, for the help and counsel they accorded you over the years, making it possible for you to achieve this celebrated finish.

It should be noted that today certainly marks the commencement of the new chapter in your life. While your time at Busitema University has been a phase to help you establish your roots firmly, it is a beginning of continued growth to more productive years ahead of you. You have received 'nourishment' in the form of knowledge and anchoring to help you bear much fruit and support to withstand the storms of life that will come your way.

I am confident that your extraordinary experience at Busitema University, the fashion in which you have conducted yourselves over the years, and the knowledge and skills you have received will promote you to overcome the future encounters.

The expedition that you are now embarking on, incorporates personal, and family responsibilities as well as a navigation of global communities and nations. This is likely to place colossal pressure on you to answer to the new growth areas, especially those caused by Global pandemics such as COVID-19. I have no doubt that, with the knowledge and skills acquired at Busitema University together with increasing creativity, innovation you will make great contribution to your local and global communities in a significant way. You must continuously adapt to a rapid changing world

especially the digital environment in order not to be left behind. Despite our many difficulties, or perhaps because of them, Uganda offers enormous opportunities for innovation in virtually every field. If you aim to serve you will find unlimited opportunity.

Today you join the multitude of convocation members, I challenge you all to intensify and innovate energy to create a better country than what we inherited. A spirit of blame does not in itself meet the crying needs we face. But an unwavering willpower to meet needs, even when we are now monetarily undercompensated, can make a remarkable difference in the lives of the people whom God brings our way and presents us the opportunity to serve. Love is not about getting. It is about giving and until we practice and transform love, I believe we shall not be able to turn Uganda and ourselves around.

I commend you to go out and love the world, starting with your family knowing that our labour in the lord is not in vain! You will be amazed at God's response to your sacrifices and so "let us do everything as unto the Lord". Remember our country's motto: *For God and my Country*. This vision of our motto is the way to peace and prosperity.

I wish you great success and excellent health as you leave the gates of Busitema University. Let us continue, together, to *Pursue Excellence* in everything we do.

For God and My Country

VICE CHANCELLOR

A WORD FROM THE VICE CHANCELLOR

On the occasion of the 12th Graduation Ceremony of Busitema University, I congratulate you all for this achievement. As you celebrate this special day in your academic journey we thank God for bringing you this far! The day that seemed very distant at the time you entered the gates of Busitema University has finally come.

I know substantial sacrifices were made to effectively pursue your studies at Busitema University. Your resolve, commitment to personal growth, and the support of your families and friends has been critical to the completion of your journey. It is not only important to celebrate every achievement in life but equally important is to remember and pray for each and every member of the family and society who contribute to our cause for celebration.

I am overly grateful to the Academic, Administrative and Support staff, who have contributed to your success, today we shall always be grateful. This day would not be as memorable as it is today if it were not for the efforts of the parents, guardians and sponsors. Thank you so much for the work well done.

During your time of stay at Busitema, you have been exposed to several opportunities in as far as putting all the theory you have learnt into practice and it is imperative to apply them in the different situations of life including this Post-COVID-19 era that has left majority aspects of performance digital and virtual. Some of you with support of your Lecturers took advantage of the conducive atmosphere at Busitema University to develop new innovations, publications and have actually received global recognitions. I hope that you will not lose this innovative spirit but you can take it further to excellence.

I encourage you to take advantage of every opportunity that will arise, and allow yourselves to engage and enhance your newly developed critical thinking and problem solving skills. In this era, where the job market is very competitive, I commend you to take advantage of any available volunteering, apprenticeship and internships opportunities. This will exploit your talents whilst accumulating the much needed experience as you transit from the academic to professional work environment.

The University has improved in a number of areas including:

- Human resource capacity and a number of staff have been recruited and many promoted to higher ranks. The University has now over 80 staff with

PhDs and the number is continuing to rise.

- On the side of research, Busitema University is continuing to win competitive grants like: “*The Parish level Night - a Day Solar crop dryer and 30 Tonne silo storage system*” has been selected for funding under the National Research and Innovation Program (NRIP) issued for the Financial year 2021/2022 from the Science, Technology and Innovation Secretariat-Office of the President (STI-OP); and “*The formulation and evaluation of Herbal Products for the treatment of COVID-19 and other viral Infections*” supported by the Presidential Scientific Initiative on Epidemics (PRESIDE) led by Dr. Samuel Baker Obakiro has gone to clinical trial stage.
- A number of infrastructural developments across our Faculties have been setup. The construction of the Maritime Institute at Namasagali, Kamuli, is ongoing as directed by His Excellence the President. The construction of a Lecture and Laboratory Complex at the Faculty of Health Sciences Mbale, is progressing well.

After the Chancellor has conferred upon you the befitting academic Award, you are addressed as a Graduate of Busitema University. You acquire the status of an Alumnus, and a Member of the Busitema University Convocation.

I urge you to take advantage as members of the Busitema University Convocation to support infrastructural development at your Alma Mata. The Convocation Association is progressing well under the charismatic leadership of Eng. Badru Musinguzi, It's a pleasure to work together with the University Convocation. We will continue to share with you developments aimed at scaling Busitema University to greater heights.

As we bid farewell to you today, I urge you to go out and make Busitema University proud. This is the time to rejoice, reflect and reposition yourself to chase your dreams.

Be confident that you can succeed and you surely will!

Congratulations on this momentous occasion of your life.

Oath (MED & BNA)

I swear to fulfill, to the best of my ability and judgment, this covenant: I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug. I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure. I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.
