## A WORD FROM THE CHANCELLOR

Allow me welcome all of you to the 13<sup>th</sup> Graduation Ceremony of Busitema University. I thank the University Council, the Senate and Management for the good work done amidst challenging circumstances. We pay special appreciation to H.E the President, the Minister of Education and Sports and the all Government organs that have made it possible for these young men and women to acquire the education to the level we are celebrating today.

To the graduands, today marks the beginning of a new chapter in your life. While at Busitema University you demonstrated zeal towards your studies, showed respect to your Lecturers, the University support staff and your fellow students. This kind of attitude should continue to guide you in your field of work. I give special gratitude to all your teachers, mentors, peers as well as to your parents and guardians, for the help and counsel they accorded you over the years, making it possible for you to attain this celebrated achievement.

While your time at Busitema University has been a phase to help you establish your roots firmly, it is a beginning of continued growth to more productive years ahead of you. You have received 'nourishment' in the form of knowledge and anchoring to help you bear much fruit and support to withstand the storms of life that will come your way.

I am confident that your extraordinary experience at Busitema University, the fashion in which you have conducted yourselves over the years, and the knowledge and skills you have received will promote you to overcome the future encounters.

The life expedition that you are now embarking on, incorporates personal, and family responsibilities as well as a navigation of global communities and nations. This is likely to place colossal pressure on you to answer to society dynamics. I have no doubt that, with the knowledge and skills acquired at Busitema University together with increasing creativity and innovation you will make great contribution to your local and global

communities in a significant way. You must continuously adapt to a rapid changing world especially the digital environment in order not to be left behind. Despite our many difficulties, or perhaps because of them, Uganda offers enormous opportunities for innovation in virtually every field. If you aim to serve you will find unlimited opportunity.

Today you join the multitude of convocation members, I challenge you all to intensify and innovate energy to create a better country than what we inherited. A spirit of blame does not in itself meet the crying needs we face. But an unwavering willpower to meet needs, even when we are now monetarily undercompensated, can make a remarkable difference in the lives of the people whom God brings our way and presents us the opportunity to serve. Love is not about getting. It is about giving and until we practice and transform love, I believe we shall not be able to turn Uganda and ourselves around.

I commend you to go out and love the world, starting with your family knowing that our labour in the lord is not in vain! You will be amazed at God's response to your sacrifices and so "let us do everything as unto the Lord". Remember our country's motto: *For God and my Country*. This vision of our motto is the way to peace and prosperity.

I wish you great success and excellent health as you leave the gates of Busitema University. Let us continue, together, to *Pursue Excellence* in everything we do.

## A WORD FROM THE VICE CHANCELLOR

I take this opportunity to congratulate all granduands, parents and benefactors on this occasion of the 13<sup>th</sup> Graduation Ceremony. As you celebrate this special day in your academic journey we thank God for bringing you this far!. This day looked distant on the day you first stepped into Busitema University. The journey has been long with a lot of challenges but those are part of the training you have achieved at Busitema University.

No doubt, your resolve, commitment to personal growth, and the support of your families and friends has been critical to the completion of your journey. It is not only important to celebrate every achievement in life but equally important is to remember and always acknowledge the contributions of society to our growth. Remember to give back to society in equal measure.

I am overly grateful to the staff, Government and all other stakeholders who have contributed to the training program which you have gone through successfully.

During your stay at Busitema University, you have acquired new knowledge, skills and an effort has been made to impart in you a positive attitude towards work; it is our hope that you will put this to good use in the world of work. It should be noted that the work terrain is rapidly changing and requires life long learning skills which we have tried to impart. Some of you with support of your Lecturers took advantage of the conducive atmosphere at Busitema University to develop new innovations, publications and have actually received global recognitions. This should give you the momentum to continue growing as innovators in your respective field of training for the world today is welcoming job creators and not job seekers

I encourage you to take advantage of every opportunity that will arise, and allow yourselves to engage and enhance your newly developed critical thinking and problem solving skills. In this era, where the job market is very competitive, I commend you to take advantage of any available volunteering, apprenticeship and internship opportunities. This will exploit your talents whilst accumulating the much needed experience as you transit from the academic to professional work environment.

The University has improved in a number of areas including:

- Human resource capacity and a number of staff have been recruited and many promoted to higher ranks. The University has now over 80 staff with PhDs and the number is continuing to rise.
- On the side of research, Busitema University is continuing to win competitive grants in the areas of natural products research, space science, material science, renewal energy and artificial intelligence. These are helping the University to transform its methods of deliver to project based learning.
- A number of infrastructural developments across our Faculties have been setup. The construction of the Maritime Institute at Namasagali, Kamuli, is ongoing as directed by His Excellence the President. The construction of a Lecture and Laboratory Complex at the Faculty of Health Sciences Mbale, is progressing well. We are also constructing a medical centre at Busitema Campus. We expect these to make the University more hospitable to our students and staff.

After the Chancellor has conferred upon you the befitting academic Award, you are addressed as a Graduate of Busitema University. You acquire the status of an Alumnus, and a Member of the Busitema University Convocation.

I urge you to take advantage as members of the Busitema University Convocation to support infrastructural development at your Alma Mata.

Despite the knowledge and skills you have acquired, honesty and integrity are going to be key to success in whichever endeavour you will undertake.

As we bid farewell to you today, I urge you to go out and make Busitema University proud. This is the time to rejoice, reflect and reposition yourself to chase your dreams.

Be confident that you can succeed and you surely will!

Congratulations on this momentous occasion of your life.

### **Oath (MED & BNA)**

*I swear to fulfill, to the best of my ability and judgment, this covenant: I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.*

*I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug. I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.*

*I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.*

*I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.*

*I will prevent disease whenever I can, for prevention is preferable to cure. I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.*

*If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.*
