INCOMING CHANCELLOR

Short Biography of Eng. Dr. Prof. Badru M. Kiggundu

Eng. Dr. Prof. Badru M. Kiggundu is a distinguished Ugandan civil engineer, academic, and national leader with more than five decades of service in engineering, higher education, and public administration. Born on 1 January 1945, he received his early education at Kabasanda Primary School, Kibuli Secondary School, and Nabumali High School before pursuing advanced studies in the United States. He holds a Bachelor of Science and PhD in Civil Engineering from the University of New Mexico, and a Master of Science in Civil Engineering from Carnegie Mellon University.

Eng. Dr. Prof. Badru M. Kiggundu served as Professor and Dean of the Faculty of Technology at Makerere University, where he contributed to engineering education, research, and mentorship. Internationally, he worked with the New Mexico Engineering Research Institute, conducting research on pavements and materials engineering that informed global practice. His professional career spans major infrastructure projects in Uganda, including leadership roles in road construction, urban engineering, and technical consultancy.

He has held several high-impact national positions, notably serving as Chairperson of the Electoral Commission of Uganda (2002–2016) and Chairperson of the Project Steering Committee for the Karuma and Isimba Hydropower Projects under the Ministry of Energy. He also served as Chairman of the Board of National Water and Sewerage Corporation and Senior Presidential Advisor on Infrastructure and Public Works, contributing significantly to governance, infrastructure development, and national planning.

A Fellow of the Uganda Institution of Professional Engineers (UIPE) and a registered engineer with the Engineers Registration Board (ERB), Eng. Dr. Prof. Badru M. Kiggundu has championed ethical engineering, professional standards, and capacity building within the engineering sector. His career reflects deep commitment to academic excellence, national development, and service to the Republic of Uganda.

A WORD FROM THE OUTGOING CHANCELLOR**Prof. Vinandi Mutakabala Nantulya**

MD, PhD (Immunology). FRCPath

My tenure as 2nd Chancellor of Busitema University lapsed this month. Over the eight (8) years, I have seen tremendous growth at Busitema University. It gives me pleasure to hand over a more vibrant University today. I warmly welcome my colleague, Eng. Prof. Badru M. Kiggundu and wish him all the best. As we celebrate the 16th Graduation Ceremony, I give special tribute to the University Council, the Senate and Management for ably managing the challenges of the University. In a special way, I appreciate H.E the President, the Minister of Education and Sports and all the Government organs that have created a conducive environment for me and for the young men and women graduating today.

To the graduands, this day marks the beginning of a new chapter in your life. You have demonstrated zeal towards your studies, showed respect to your Lecturers, the University support staff and your fellow students. This attitude should continue to guide you in your field of work. I give special gratitude to all your teachers,

mentors, peers as well as to your parents and guardians, for the help and counsel and sacrifices they accorded you over the years, making it possible for you to attain this celebrated achievement.

I am confident that your extraordinary experience at Busitema University, the fashion in which you have conducted yourselves over the years, and the knowledge and Innovation tips you have received will promote you to overcome the future encounters.

Today you join the multitude of convocation members, I challenge you to intensify and innovate to create a better country than what we inherited. A spirit of blame does not in itself meet the crying needs we face. But an unwavering willpower to meet needs, even when monetarily undercompensated, can make a remarkable difference in the lives of the people whom God brings our way. Love is not about getting. It is about giving and until we practice and transform love, I believe we shall not be able to turn Uganda and ourselves around.

I implore you to go out and love the world, starting with your family, knowing that our labour in the Lord is not in vain! You will be amazed at God's response to your sacrifices and so "let us do everything as unto the Lord". Remember our country's motto: ***For God and my Country***. This vision of our motto is the way to peace and prosperity.

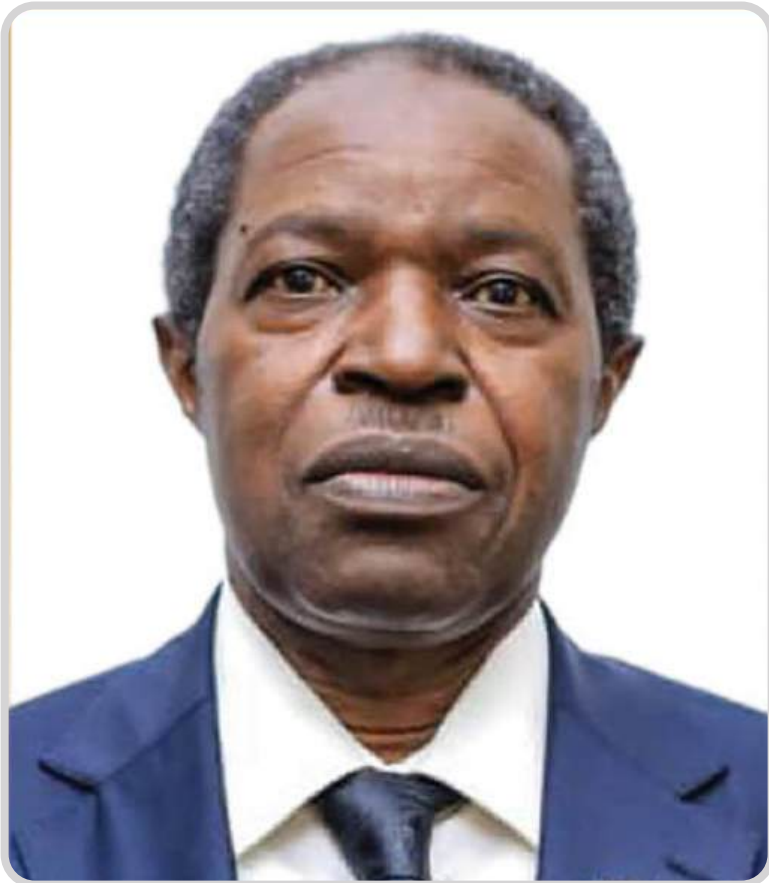

I wish you great success and excellent health as you leave the gates of Busitema University. Let us continue, together, to ***Pursue Excellence*** in everything we do.

I reiterate my commitment to remain close to Busitema University even when I bow out from the position of Chancellor.

For God and My Country

VICE CHANCELLOR

A WORD FROM THE VICE CHANCELLOR

Today is a special day at Busitema University as we celebrate the success of 1915 graduands. It is also a historical day as we install the 3rd Chancellor of Busitema University, Eng. Prof. Badru M. Kiggundu.

I appreciate the great work done by the outgoing Chancellor, Prof. Vinand Mutakabala Nantulya. I congratulate all graduands, parents and benefactors on this occasion of the 16th Graduation Ceremony. We thank God for bringing us this far! The journey has been long with a lot of challenges but those are part of the training you have achieved at Busitema University. Your resolve, commitment to personal growth, and the support of your families and friends has been critical to the completion of your journey. It is not only important to celebrate every achievement in life but to acknowledge the contributions of society to our growth. Remember to give back to society in equal measure.

I am overly grateful to the staff, parents, government and all other stakeholders who have contributed to the training program which you have gone through successfully.

During your stay at Busitema University, you acquired new knowledge, skills positive attitude towards work and life; it is our hope that you will put this to good use in the world of work. It should be noted that the work terrain is rapidly changing and requires lifelong learning skills which you have acquired. Some of you with support of your Lecturers took advantage of the conducive atmosphere at Busitema University to develop new innovations, publications and have received global recognitions. This should give you the momentum to continue growing as innovators in your respective fields of training because the world today is for job creators other than job seekers.

I encourage you to take advantage of every opportunity that will arise and allow yourselves to engage and enhance your newly developed critical thinking and problem solving skills. In this era, where the job market is very competitive, I commend you to

take advantage of any available volunteering, apprenticeship and internship opportunities. This will exploit your talents whilst accumulating the much-needed experience as you transit from the academic to professional work environment.

The University has improved in a number of areas:

- Today Busitema graduates its first PhD students in the Faculties of Management Sciences and the Faculty of Engineering and Technology, Dr. Mrs. Wanyana Mercy Mugonola and Dr. Menya Joseph
- Human resource capacity: several staff have been recruited and many promoted to higher ranks. The University has now over 80 staff with PhDs and the number continues to rise.
- Regarding research, Busitema University is continuing to win competitive grants in the areas of natural products research, space science, material science, renewal energy and artificial intelligence. These are helping the University to transform its methods of delivery to project-based learning.
- A number of infrastructural developments across our Faculties have been setup. The construction of the Maritime Institute at Namasagali, Kamuli, is ongoing as directed by His Excellency the President. The construction of a Lecture and Laboratory Complex at the Faculty of Health Sciences Mbale, is progressing well. The construction of an Auditorium at the Faculty of Science and Education is under way. We expect these to make the University more hospitable to our students and staff.

After the Chancellor has conferred upon you the befitting academic Award, you are addressed as a Graduate of Busitema University. You acquire the status of an Alumnus, and a Member of the Busitema University Convocation. I urge you to take advantage as members of the Busitema University Convocation to support infrastructural development at your Alma Mater.

Despite the knowledge and skills you have acquired, honesty and integrity are going to be key to success in whichever endeavor you will undertake.

As we bid farewell to you today, I urge you to go out and make Busitema University proud. This is the time to rejoice, reflect and reposition yourself to chase your dreams.

I thank H.E the President, the Minister of Education and Sports, Mama Janet Kataaha Museveni and the entire Government for the support accorded to Busitema University. The University has taken a positive trajectory.

Congratulations on this momentous occasion of your life.

WANYANA Mercy Mugonola

INNOVATIVE WORK BEHAVIOR AMONG UGANDA'S PUBLIC UNIVERSITY ACADEMIC STAFF

Wanyana Mercy Mugonola investigated Innovative Work Behavior among Uganda's Public University Academic Staff using behavioral theories. She particularly set out to examine mechanisms that management in public universities can use to enhance academic staffs' innovative work behaviour to achieve increased organizational success. Using an explanatory sequential research design, she established that psychological empowerment plays a mediating role in the relationship between perceived

organizational support, servant leadership, and innovative work behaviour among academic staff in Uganda's public universities. Her work sheds light on the contextual and individual level aspects that contribute to creative work practices-IWB. By integrating perceived organizational support initiatives, organizational culture, servant leadership practices and psychological empowerment, Mercy's work provides a novel approach to management of innovative work behaviour by creating a supportive, trusting, and empowering environment where employees feel motivated to generate and implement new ideas. She recommends that high levels of innovative work behaviour require varied and integrated organizational support approaches based on perceived organizational support principles, defining innovation as a core value and establishing supporting structures, implementation of sound servant leadership practices, and development of psychologically empowered staff. From the policy perspective, she recommends actionable strategies for government through its line ministry and relevant bodies to nurture a positive workplace environment in public universities through development of programs and initiatives that raise employees' motivation for innovation, enhancing teaching quality, research output and overall institutional performance. This study was funded by Busitema University and was supervised by Assoc. Prof. Musenze Ibrahim Abaasi and Prof. Abdul Kaziba. Mpaata.

MENYA James

**UGANDA CROPS DRYING CHARACTERIZATION FOR AUTOMATION OF
A SOLAR DRYER**

Mr. James Menya conducted ground-breaking research on solar drying and storage optimization for post-harvest loss reduction in Uganda. His study aimed at enhancing a solar drying system through characterization, automation, and moisture control for effective drying and safe storage of crop products. His work demonstrated that locally fabricated systems can rival advanced technologies while ensuring consistent, food-safe drying with minimal supervision. By integrating high-efficiency solar energy utilization, intelligent control, and safe storage, Mr. Menya's work provides a novel, climate-resilient approach to food preservation that enhances quality, safety, and year-round availability of agricultural produce. This contribution advances Uganda's pursuit of sustainable agro-industrialization and food security through renewable energy innovation. This study was funded by the government of Uganda through Busitema University Research Innovations Fund (BURIF) and was supervised by; Associate Prof. Kant Kanyarusoke, Prof. Wilson Babu Musinguzi and Eng. Dr. Joseph Ddumba Lwanyaga.

OATH

I solemnly pledge myself before God and in the presence of this assembly to pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug.

I will do all in my power to maintain and elevate the standard of my profession and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling.

With loyalty will I aid the physician in his/her work, and as a missioner of health, I will dedicate myself to devoted service for human welfare

Oath (MED & BNA)

I swear to fulfill, to the best of my ability and judgment, this covenant: I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug. I will not be ashamed to say I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may a/so be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure. I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

A WORD FROM THE CONVOCATION CHAIRPERSON

Eng. Musinguzi Badru,
Chairperson, Convocation

On this 16th Graduation Ceremony of Busitema University, we gather to honour the academic achievements of our graduates and to celebrate the continuous growth of our university community. This occasion also reaffirms the vital role of the Convocation—established under the Universities and Other Tertiary Institutions Act (2001)—in supporting our students, alumni, staff and the broader mission of the University.

Allow me acknowledge the dedication and leadership of the Busitema University Convocation Executive Committee, whose tireless efforts have been instrumental in advancing the Convocation's mission

As you graduate, you join a distinguished and expanding family of over 15,000 Busitema alumni. Becoming part of the Convocation is not merely a formality; it is a lifelong bond connecting you

to thousands who have walked the same paths, faced similar academic challenges, and are today contributing significantly to national development in sectors such as Medicine, Agriculture, Technology, Airspace among others.

The Convocation continues to create opportunities to uplift students and empower alumni. We:

1. Established the Convocation Scholarship Fund, to support underprivileged but academically gifted students.
2. Established a **University Regalia production house** (for graduation gowns, promotional materials). We are proud to say that the gowns you are wearing are from this facility whose labour is complimented by our own students and Alumni. We look forward to enhancing this initiative through expanded production capacity and improved equipment.
3. Implemented Student Mentorship and Guest Lecture Programmes. This programme has impacted over **1,000 students** since inception.
4. Developed a platform to connect Busitema Alumni and students' flexible jobs, mentorships, Internships and Graduate Trainee opportunities with projections of 145 billion per year in earnings. The Platform is called **Qwikijobs** and will soon be rolled out.
5. Established a **Convocation SACCO**, designed to provide startup financial support and promote entrepreneurship among graduates.
6. Championed Climate Change Initiatives through the **Square of Excellence** and **Trees for Graduation Programme**. The **Square of Excellence** is a legacy initiative where top-performing students plant a tree in memory of their distinguished achievements as well as persons that have contributed immensely to the University's prosperity. The **Trees for Graduation**

Programme aims to plant **5 million trees** across all the campuses of Busitema contributing to the broader climate resilience efforts of the University.

7. Established a members database of all former graduates and have fostered engagement through meetups and Annual meetings.
8. Supported the University **Visibility efforts** among others.

Lastly, as you transition into the professional world, I encourage you to stay connected—to your peers, your lecturers, and the University. Meaningful alumni networks open doors to mentorship, collaboration, career opportunities, and business partnerships. Join professional bodies such as the Uganda Institution of Professional Engineers (UIPE), Uganda Medical Association (UMA), Uganda National Teachers' Union (UNATU), and several others in line with your careers. Most importantly, participate in Convocation activities, and be active contributors to the growth of our Alma Mater.

On my own behalf as Chairperson of the Convocation and on behalf of the Executive Committee, I congratulate the Class of 2025 and wish you success in every endeavour ahead. May you continue to pursue excellence, uphold the values of Busitema University, and remain proud ambassadors wherever you go. We look forward to walking this journey with you—today, and in all the years to come.

Pursuing Excellence,

For God and My Country
